

Hall 1 – Breakfast		
07.45 – 08.45	Breakfast symposia – 1 Chairpersons: Dhaval Shukla, Sunil Garg, Sandeep Chatterjee Moderator: Aadil Chagla	Advance in Science and Philosophy of Neurosurgery
7.45 – 7.55	Dilip Panicker	Awake craniotomy for hemispheric tumors
7.57 – 8.07	N Venkatramana	Endoscopic approach to craniopharyngiomas – Technique and advantages
8.09 – 8.19	Suhas Udaykumaran	Management of pediatric craniofacial anomalies “The philosophy, science and the art”
8.21 – 8.31	Siddhartha Ghosh	Large Giant Vestibular Schwannoma: Is total excision worth the trouble?
Hall 2 – Breakfast		
07.45 – 08.45	Breakfast symposia – 2 Chairpersons: Anant Mehrotra, Mohan Sharma, Anil Pande Moderator: K. E. Turel	Complications In Neurosurgery
7.45 – 7.55	Satish Rudrappa	Complications in Spine Surgery
7.57 – 8.07	S N Mathuriya	Complications in Vascular surgery
8.09 – 8.19	Keki Turel	Complications in Skull Base Surgery
8.21 – 8.31	Sudhir Dubey	Complications in Pituitary surgery
8.33 – 8.43	Sandeep Vaishya	Complications of minimally invasive surgery
Hall 3 – Breakfast		
07.45 – 08.45	Breakfast symposia – 3 Chairpersons: Manmohan Singh, Amit Chakraborty Moderator: Ketan Desai	Radiosurgery and Peripheral nerve surgery
7.45 – 7.55	Manjul Tripathi	Role of gammaknife radiosurgery for Skull Base lesions: Current Concepts and Limitations
7.57 – 8.07	Sumit Sinha	Benign peripheral nerve tumors

8.09 – 8.19	Steven Ojemann	Technical transformations in stereotactic and epilepsy surgery, including diagnostic and therapeutic applications of robotic-assisted stereo-Eeg, stereotactic laser ablation
8.21 – 8.31	Ketan Desai	“Iatrogenic peripheral nerve injuries”- a potentially difficult problem
Hall 4 - Breakfast		
07.45 – 08.45	Breakfast symposia – 4 Chairpersons: Krishna Kumar, Ashok Gupta Moderator: Paresh Doshi	Movement Disorder
7.45 – 7.55	Deepa Dash	Challenges in medical management of Parkinson’s disease
7.57 – 8.07	Sanjay Pandey	Challenges in medical management of Non-Parkinsonian movement disorders
8.09 – 8.19	Milind Sankhe	Deep brain stimulation in movement disorders
8.21 – 8.31	Dwarkanath Srinivas	Overview of lesioning in movement disorder surgery
8.33 – 8.43	A K Purohit	Intrathecal baclofen and Selective motor fasciculotomy in Dystonia
Hall 1		
09.00 – 10.50	Free Paper Session: History of Neurosciences Chairpersons: Harshad Parekh, H R Bagaria, B A Chandramouli	
0900 – 0910	Aadil S Chagla	Ram Ginde and the beginnings of Neurosurgery in Western India 2018
0910 – 0920	P M Bhatt	Sir Norman Dott and his contribution to Pituitary disorders: What is Cushing's influence?.
0920 – 0930	Krishan Kumar Yadav	Thomas Willis - the turbulent life & times of father of neurosciences
0930 – 0940	Anil Pande	Karl H Pribram-Neurosurgeon, Neuroscientist and Revealer of the Form Within.
0940 – 0950	K. E. Turel	Ethics and complication in Neurosurgery
0950 – 1000	Sundaravadhanan Shashivadhanan	Neuroethics: Current status and challenges

1000 – 1010	Nishanth Sampath	History and Evolution of Intraoperative Neurophysiological Monitoring
1010 – 1020	Suresh Asopa	"How I Do It: Developing full fledged Neurosurgery in an Island"
1020 – 1030	Murlidharan Nair	Guillain Barre Syndrome - A Historical Narrative
1030 – 1040	Abhidha Harshad Shah	Management of Basilar Invagination - A Historical Perspective
10.50 – 12.05		
Free Paper Session: Radiosurgery/Epilepsy		
Chairpersons: V Rajshekhar, Ajay Kumar Mishra, Malla Bhaskar Rao		
1050 – 1105 (Lead Paper)	Ari G Chacko	Management of Residual Growth Hormone Secreting Pituitary Adenomas
1105 – 1115	George C Vilanilam	Is the epilepsy surgery learning curve any different from other neurosurgical operations?
1115 – 1125	Shabari Girishan K V	Improving seizure and motor functional outcomes following endoscopic hemispherotomy for drug refractory epilepsy.
1125 – 1135	Vamsi Krishna Yerramneni	Insular seizures as a cause for epilepsy surgery failures
1135 – 1145	Nilesh S Kurwale	Analyzing failures in functional hemispherotomies: Our initial experience of 3 years
1145 – 1155	Manjul Tripathi	Bevacizumab: Safety and Efficacy for Steroid Resistant Radiation Induced Brain Edema-Last Part in The Ship of Theseus
1155 – 1205	Chamankar Nikhil Suresh	Globus Pallidus Internus Deep Brain Stimulation in dystonia
1205 – 1215	Ashwin Uday Borkar	Cyberknife for classical trigeminal neuralgia: an institutional experience
1215 – 1225	Kanwaljeet Garg	Pallidotomy in dystonia-Experience from a tertiary care centre in a developing country
1225 - 1235	Jenil Gurnani	The Short Term Effects Of Gamma Knife Radio-Surgery On Hormonal Profile Among Patients Treated For Non Pituitary Lesions: An Experience Of 100 Cases From A Tertiary Care Hospital In North India

1235 - 1245	Santhosh Kumar SA	The relationship of dentate nucleus with the pyramid of vermis: a microneurosurgical anatomical study
1245- 1255	Raghav Singla	Role of radiosurgery for Cavernous sinus hemangiomas: An Institutional experience of 24 cases.
Hall 2		
09.00 – 11.00	Friendship Meeting [NSI /SAARC/ SBNS /AANS] 12+3 Minutes Chairpersons: Mohan Sharma, N C Poonia, George Vilanilam	
0900 – 0915	R C Mishra	Transcallosal excision of colloid cysts
0915 – 0930	Deepu Banerjee	Avoiding Vascular Complications in Pituitary Surgery
0930 – 0945	K Sridhar	Use of DTI and DTT in Intra-axial Lesions
0945 – 1000	Lokendra Singh	Surgical Management of Thalamic Tumors
1000 – 1015	Erin Kiehna	TBA
1015 – 1030	William Couldwell	Variations on the Far-Lateral approach
1030 – 1045	Mohan Sharma	Philosophy of Neurotrauma Care
1045 – 1100	Prabin Shrestha	Anterior Cervical Discectomy and Bone Cement fixation: Technology in a Developing Country
11.00 – 12.30	Free Paper Session: Vascular Chairpersons: Sudheer Ambekar, Trilochan S, Ranjit Rangnekar	
1100 – 1115 (Lead Paper)	Arun Kumar Gupta	Results of long term outcome of flow diverter placement a single institutional experience
1115 – 1125	Batuk Diyora	Microsurgical Outcome of Brain Arteriovenous Malformations: Our Experience.
1125 – 1135	Sarit Pravin Shah	Carotid endarterectomy- our strategy and outcome; single surgeon experience
1135 – 1145	Gaurav Goel	Surpass flow diverter in the treatment of acutely ruptured aneurysms: Indian multicenter experience
1145 – 1155	B. Jayanand Sudhir	Long term outcome of Surgery for Moyamoya disease
1155 – 1205	Kamlesh Singh Bhisora	Management strategies and surgical outcome of paraclinoid aneurysms: An experience of 55 patients

1205– 1215	D R Shankar	An analytical study of microsurgical anatomy of ACA-ACoM Complex -
1215– 1225	Yogesh M Sawakare	Study of the predictors of rupture of specific aneurysm in a patient diagnosed with multiple aneurysms-a prospective exploratory observational study.☒
1225- 1235	Jaskaran Singh	Giant intracranial aneurysms: lessons learnt over the past 10 years.
1235- 1245	Subhas Kanti Konar	The correlation of endothelial nitric oxide synthase (eNOS) polymorphism and other risk factors with aneurysmal subarachnoid hemorrhage: A case-control study.
1245- 1255	Mazharkhan Mulla	Carotid Cavernous Fistula: Early experience.
1255- 1305	Deepak Kumar Singh	Microsurgical management of posterior circulation aneurysms:lessons learnt
Hall 3		
09.00 – 11.00	Free Paper Session – Neurosurgery 1 Chairpersons: Harshad Purandare, Pushkar Gupta	
0900 – 0910	Dilip Kumar Macharla	MIB-1 index as a predictor for Vestibular schwannoma regrowth after surgery
0910 – 0920	Chandratej Kadam	Role of diffusion tensor imaging (DTI) in assessment of mild traumatic brain injury (m TBI)
0920 – 0930	Raghavendra M	Endoscopic management of intra ventricular neurocysticercosis: operative nuances and complication avoidance: A series of 12 cases
0930 – 0940	Manbachan Singh Bedi	Lazy microsurgical simulator: a homemade microsurgical simulator for enhanced resident training and practice.
0940 – 0950	Mazda Keki Turel	Decision making in Cervical Deformity
0950 –1000	Puram Saikiran	Comparison of Clinical and Radiographic Outcomes between Foramen magnum Decompression versus Foramen magnum Decompression + Tonsillectomy +/-syringosubarachnoid shunting for syringomyelia associated with Chiari I malformation.

1000 –1010	Arun S	Minimally invasive discectomy versus microdiscectomy/open discectomy for lumbar disc herniation
1010 – 1020	M Aqib	Effectiveness of tranexamic acid in chronic subdural hematoma
1020 – 1025	Kartik Manoj Multani	Utility and pitfalls of intraoperative 3 tesla MRI in neurosurgery: a single tertiary center experience
1025 – 1030	Vibhu Shankar Parashar	Traumatic posterior fossa extradural hematoma: a comprehensive analysis of cases from a tertiary care trauma centre.
1030 – 1040	Suyash Singh	Use of Autologous multipotent cables as interposition grafts for sciatic nerve regeneration in rat models
1040 – 1050	Ajay Hegde	Does decompressive craniectomy improve outcome following surgery for Spontaneous supratentorial intracerebral hematomas.
1050 – 1100	Bhaliya Hitesh Kumar	Role of basal cisternostomy in traumatic brain injury
11.00 – 12.40	Free Paper Session – Neurosurgery 2 Chairpersons: Bhawna Sharma, Awdesh Jaiswal, Ram Kumar Menon	
1100– 1110	Rohit Ramesh Wadikhaye	Visual outcomes for optic nerve decompression in patients with idiopathic intracranial hypertension
1110 – 1120	SangeetaYadav	To evaluate the usefulness of molecular markers by Immunohistochemistry in Diffuse Gliomas-Role of IDH 1 mutation status in their Diagnosis & Prognosis.
1120 – 1130	Rahul Ahluwalia	Prospective Observational Study of Anatomical Variations of Vertebral Artery And its Implications in Craniovertebral Junction Anomalies
1130 – 1140	Binoy Kumar Singh	Efficacy of Gene expert PCR in detection of Spinal Tuberculosis and Rifampicin Resistance
1140 – 1150	Srikanta Kumar Das	Use of MRI to classify and post traumatic SAH an institutional study
1150 – 1200	Pankaj Kumar Gupta	Neuro-endocrine dysfunction in traumatic subarachnoid haemorrhage : a prospective study

1200 – 1210	Ankush Gupta	Prevalence and pattern of leptomeningeal pigmentation in the human brain and its role in the safe surgical excision of extra-axial brain tumors
1210 – 1220	Modi Harin Hemeshkumar	Retrospective analysis of ventriculo-peritoneal shunt complications from a single tertiary care hospital.
1220 – 1230	Kalangri Murali Krishna	A prospective study on the relevance of pre hospital presentation and care at transit on the outcome in traumatic brain injury at a tertiary care centre.
1230 - 1240	Anil Kumar Kothiwala	Evaluation of efficacy of Endoscopic third ventriculostomy as revision CSF diversion procedure
1240 - 1250	Aditya Gupta	Group practice in clinical neurosciences: why and how
1250 - 1300	Biswajit Paul	A case of Idiopathic intracranial hypertension (IIH) with bilateral Transverse sinus stenosis treated with Balloon Angioplasty
1300 - 1310	Gurupadappa	A Cost Effective Technique for Neurosurgical audit
Hall 4		
09.00 – 11.00	CVJ Symposia Chairpersons: Sarat Chandra, V.D. Sinha, D.K. Vatsal Moderators: Atul Goel	
0900 – 0915	Sushil Patkar	Anterior approaches to craniovertebral junction
0915– 0930	Komal Prasad	Avoiding complications in Craniovertebral Junction Surgeries
0930– 0945	Pravin Salunke	Delayed complications of fusing the occipital squama to the cervical spine in congenital atlantoaxial dislocation and basilar invagination
0945 – 1000	Sarat Chandra	Use of an universal CV Junction reducer to reduce severe basilar invagination and atlanto-axial dislocation
1000 – 1015	S S Kale	Management of CVJ Tuberculosis
1015 – 1030	Sanjay Behari	Craniovertebral Junction Anomalies – Some lesser known facts in management
1030 – 1045	N Muthukumar	Lessons learned from syndromic pediatric CVJ anomalies
11.00 – 12.30	Free Paper Session – Paediatric Neuroscience	

1100 – 1110	V. Rajshekhar	Intra-operative mMEP monitoring in 60 children 2 years of age undergoing tethered cord surgery
1110 –1120	Rajneesh Kachhara	Surgical results of craniopharyngioma: Experience with 80 cases
1120– 1130	Suhas Udayakumaran	Correlating intraoperative monitoring in surgery for a tethered cord with long term outcome: How close can we get?
1130 – 1140	Amit Kumar	Role of a Neurosurgeon in counselling following antenatal imaging of congenital cranial and spinal disorders.
1140 – 1150	Keshav Mohan Jha	Sinus Pericranii: A rare vascular anomaly
1150 – 1200	Manikandan P	Endoscopic third ventriculostomy vs cerebrospinal fluid shunt in the treatment of hydrocephalus
1200 – 1210	Eshan N Nerkar	Ventriculosubgaleal Shunt: An effective alternative for temporary CSF diversion In Neonatal Infective Hydrocephalus.
1210 – 1220	Sushanta Kumar Sahoo	Developmental Retro-cerebellar Cysts: A New Classification for Neuroendoscopic Management
1220 – 1230	Srikant Balasubramaniam	Clinical Profile of Pediatric Head Injury Patients
1230 - 1240	Honrao Uttareshwar Vishwanath	An Epidemiological analysis of patients of pediatric spinal injury at a Tertiary care Institute in Eastern India
1240 - 1250	Pillai Shibu Vasudevan	Craniopharyngioma: can we get them to grow up as normal kids?
1250 - 1300	Abhijit Verma	ETV vs SHUNT in TBM with hydrocephalus in paediatric cases:7 yrs institutional experience
1300 - 1310	Krishan Kumar Yadav	Neurofibromatosis -type 2: concepts, challenges & management aspects
Hall 5		
09.00 – 11.00	Free Paper Session – Neurosurgery 3 Chairpersons: Ketan Desai, Roopesh Kumar, Ashok Gandhi	
0900 – 0910	Sandeep Mohindra	Invasive Intracranial Aspergillosis -Twenty years experience from a tertiary neurosciences centre
0910 – 0920	Shanker N Athawale	Vestibular schwannoma - strange views

0920 – 0930	Shaam Bodeliwala	Suboccipital transtentorial approach for the pineal gland region tumors: An Institutional Experience
0930 – 0940	Sankalp Bhartiya	Use of electromagnetic image guidance technique for placement of ventricular catheter in patients with hydrocephalus- is it justified?
0940 – 0950	Utkarsh VikasRao Ghavghave	To Evaluate the Correlation between Proliferation Index And Angiogenesis With Grade of Glioma.
0950 –1000	Mukesh Vij	To determine the survival of glioblastoma patients having either methylated or unmethylated MGMT promoter gene, treated with radiotherapy and temozolomide with follow-up of upto 1 year
1000 –1010	Harish Naik	Intracranial cavernomas : an institutional review
1010 – 1020	M.J.Arunkumar	Intraoperative tumour fluorescence (yellow 560) in high grade gliomas with early post operative mri to assess tumour resection
1020 – 1025	Chetan.P.R	Incidence, Clinical Features, Histopathological Correlation And Prognosis Of Isocitrate Dehydrogenase 1(R132H) And Isocitrate Dehydrogenase 2(R172M) Mutations In Intracranial Intra-Axial Tumours.
1025 – 1030	Prashank Goel	Role of retinal nerve fiber layer thickness in assessing post-operative recovery of visual acuity in patients of pituitary adenomas
1030 – 1040	Manish Baldia	Relative resilience of visual and pituitary function in patients with large non-functioning pituitary adenomas
1040 – 1050	Vivek Sharma	Effect of cranioplasty on cerebral metabolism, cerebral perfusion and cognitive function with respect to timing of surgery
1050 – 1100	Kode Sashanka	Optimal dimensions for a decompressive craniectomy bone flap, An analysis

11.00 – 12.40	Free Paper Session – Neurosurgery 4 Chairpersons: Manjul Tripathi, KK Bansal, Harman Sobti	
1100– 1110	Karthik Madhavan	In-patient outcomes following elective lumbar spinal fusion for patients with Human Immunodeficiency Virus
1110 – 1120	Vishwanatha N	Supraorbital Craniotomy - Our experience
1120 – 1130	Sachin A. Giri	Aneurysm surgery without retractors
1130 – 1140	Sateesh Melkundi	Spinal Cord Tumors – A single author experience in the periphery
1140 – 1150	Vikas Sharma	Enhanced resection of primary high-grade gliomas using a combination of intraoperative magnetic resonance imaging and intraoperative fluorescence (5-aminolevulinic acid): A single-centre experience
1150 – 1200	Dilip Dutta	Role of intra operative cortical and subcortical mapping and phase reversal technique for lesions at and around motor cortex : an experience of 21 cases.
1200 – 1210	Vivek Kumar Kankane	Petroclival meningioma: Current Management & Results in 21st Century
1210 – 1220	Abhijit Nanda Parab	Endoscopic keyhole retromastoid approach for lesions in and around the cerebellopontine angle
1220 – 1230	Vikrant Katiyar	Changes in cerebral hemodynamics and clinical outcome in patients of decompressive craniectomy undergoing cranioplasty
1230 - 1240	Arun Kumar K	CSF Rhinorrhea from the Lateral Recess of Sphenoid Sinus: More to it than meets the eye
1240 - 1250	Raman Mohan Sharma	Endoscopic Management of Third Ventricle Colloid Cysts, analysis of the Technical Nuances and the Neuroendoscopic anatomy : a preliminary experience
1250 - 1300	Ratnika Joshi	Does routine sellar repair reduces the incidence of post-operative csf leak
1300- 1310	Vikrant Keshri	Risk stratification in low grade glioma (rule of 5)

1310 – 1315	Sushil Bhogawar	MRI predictors of outcome after surgical intervention for cervical spondylotic myelopathy
Free Posters
