## ABOUT US

The “Society of Indian Neuroscience Nurses” (SINN) is a sub- section of Neurological society of India (NSI). NSI came into existence in 1951 by founder members Late Dr. Jacob Chandy (Neurosurgeon), Dr. Baldev Singh ( Neurologist) from C.M.C hospital, Vellore and Dr. S.T Narasimhan (Physician and Electro physiologist) and Late Dr. B Ramamurthi (Neurosurgeon) from Madras Medical College & Hospital.

In 1979, a nucleus of association of Neuro- nurses in India (as associate members of NSI) was created at national institute of Mental Health and Neuroscience (NIMHANS) DURING 29th annual conference of NSI and decided to hold Nurses Conference of the Society. This annual ‘Satellite Conference of Neuro- nurses of India’ provided a forum for Indian Neuro- nurses to exchange views on how to set high standards of care for nurses in this speciality and broaden their horizon of knowledge and practice.

In 1988, this sub-section got registered with the Registrar of Firms and Societies, Chandigarh under Act 21 of 1860 as No. 1550 of 1988 and this has been named as “ Society of Indian neuroscience Nurses” (SINN).

**Workshop Objectives:**

- Create an environment to meet the learning needs of nurses from novice to expert levels of practice.
- Provide opportunities to promote the advancement of neuroscience nursing.
- Create avenues for networking and mentoring among neuroscience nursing colleagues.
- Optimize patient care through exposure to innovative research and leading evidence-based practice.
